

Reviewer #2

Questions

- 2 Table-1 found. Both the tables lack recent papers.

Response: We have corrected this errors and included some new articles

- Fig 4 shows the accuracy of research work done from 2007 to 2018. No latest paper
- Found some references given in the introduction section but not available in the Reference section

2. Overall evaluation

- The article presents a review report by considering the very old research paper. A systemic summarization of review work is lacking.

Reviewer #5

1. Referencing need to be improved

2. References are old, recently published papers should be included in the study

2. Future scope may be included briefly in conclusion part

3. Joint comparison of three different kinds of signal (EEG, ECG,EOG) , Based schemes need to be included to reach the final conclusion.

-Title is fine, Abstract need to be improved as per suggestions above.

-Literature review need to be improved

- Result and conclusion also need to be improvised

Red – OM

Green – Aman

Yellow - Done by OM

Add recent paper from 2019 - 2023
